EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Slattery on March 23, 2005.

The application has been amended as follows: In line 1 of claims 1, 10, and 12 --, said cylinder block—has been inserted after "sleeve" to reflect the fact that the arc recesses are formed in the cylinder block, rather than the sleeve.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the claimed invention as a whole including a process for producing a cylinder block and the cylinder block itself, the cylinder block having arc recesses formed at an intersection between a deck face joined to a cylinder head and a cylinder bore for avoiding interference with umbrella portions of valves mounted in the cylinder head, said cylinder block also having an embedded sleeve which is spaced from the deck face, and a bore pin, which it utilized in casting the cylinder block, the bore pin being mated with the sleeve to support the sleeve as the casting of the block and embedded sleeve is taking place. The closest reference is Tanahashi et al (4,883,030) which has annular recesses which surround the entire upper circumference of the cylinder bore, but these are not the arc recesses shown by applicant, and their purpose is not to avoid interference with the umbrella portion of valves mounted in the

cylinder head. In addition, the Tanahashi et al reference does not employ a cylinder liner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marguerite J. McMahon whose telephone number is 703-308-1956. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yuen Henry can be reached on 703-308-1946. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
